2/13/69

Dear Sylvia,

Many thanks for the clipping on Humes.

How fascinating that there is no mention of the single thing for which he is best known, his conduct of the autopsy.

Is it that the pathologists are not proud? They certainly are aware.

Could it be that the hospital wanted no attention to this? Or that his is the preference, that it was not in the hospital reaease.

Strange omission, in any event.

Sincerely
